PACKING DAY

- _____ 1. Arrange for child care. NOTE: Don't forget about the "free" child care offered by the Child Care for PCS Program at the Airman and Family Readiness Center!

- _____ 2. Watch the packers very carefully to see that they understand and know exactly which items are to be packed. You can indicate this by putting different colored stickers on each item or separate by rooms.
- _____ 3. You may wish to keep a record of the contents of each carton being packed. This may make it easier to locate specific items upon their arrival at your next base. If any cartons are missing, it will be possible to determine quickly what is missing. NOTE: The packers do move fast. You cannot hold up the packers while accomplishing this list.
- _____ 4. Mirrors, paintings, and other items easily damaged or broken should be packed by the moving company personnel.
- _____ 5. If lift vans (huge crates of wood or metal used for overseas shipments) are loaded at your doorstep, watch the packing of them. Be sure everything is protected against slippage, concussion, or friction. The heaviest items should be at the bottom of the van.

Pack a "moving day needs" box with cleaning supplies, sponges, paper towels, toilet and facial tissue, bath towels, bath soap, shampoo, can opener, paper plates, napkins, plastic eating utensils, snacks, coffee, tea, soda, light bulbs, scissors, hammer, and trash bags. _____ 10. Smile...You've done a superb job of getting organized!!!!

ON THE WAY

_____ 1. Keep a log of all moving expenses incurred. This will be helpful at tax time. An Air Force survey indicates members only receive \$1.00 reimbursement for every \$3.00 spent on moves. - | | |
|-----------------------------|-------------------------------|
| _____ a. Rental cars | _____ e. Meals |
| _____ b. Air/bus/rail fares | _____ f. Rent deposits |
| _____ c. Cost of gasoline | _____ g. Utility deposits |
| _____ d. Accurate mileage | _____ h. Installation charges |

_____ 2. Let each day flow with the daily plan.

- * Infants have few concerns outside their immediate environment...they take "cues" from you. Are you angry and frustrated or relaxed and content?
- * Young Children do best when kept on the same eating and sleeping routine. Introduce new sights and sounds with patience.
- * Elementary School Children may be losing their first friends. Allow for expression of grief in daily discussions.

_____ 3. Hints for traveling with kids:

- * Children have a natural wariness of the unknown. Including them in the planning can help allay fears.
- * Stick to your child's usual bedtime and mealtimes, and read them their favorite story. Unpack the minute you arrive so everyone feels at home.
- * Balance your day, making plenty of time for a romp in the park and a cool drink after an hour in a museum. Even when having fun, kids have a limited attention span.
- * Packing pointers: Take one small bag per person. Let each child take only one special toy. Don't forget a first-aid kit, with disinfectant, band-aids, and so on. Tuck in a nylon folding suitcase--great for lugging home souvenirs or dirty laundry.
- * Call ahead to confirm hotel services for children, such as cribs and cots. Need time alone or with your spouse? Your hotel can probably recommend a reputable baby sitter.

AT YOUR NEW HOME

- _____ 1. Upon arrival at your new station, check with the Housing Office before you rent, lease, or buy a home. Their office will provide you with information on rental agreements, housing restrictions, military clause contracts, and hints on buying and inspecting a new home. This is one of the most important stops!
- _____ 2. Notify the local transportation office of your arrival and provide delivery location data.
- _____ 3. If at all possible, accept delivery of your property whenever it arrives. This will prevent additional handling and possible loss or damage.

- ____ 4. Visit Family Services for loan closet needs.
- ____ 5. Check with your new Airman and Family Readiness Center to obtain your Child Care for PCS certificate. Remember, it must be used within 60 days of your arrival/departure from your losing and gaining base.
- ____ 6. Meet the moving company. Have a diagram of your new home. Sketch what furniture goes where. List what boxes go into which room. Put a diagram on the door of each room.
- ____ 7. Check and double check everything on your inventory is accounted for and in proper condition.
- ____ 8. Do not sign for services not performed. Call the transportation office if problems arise.
- ____ 9. Assure that you and the carrier note any loss or damage occurred during the move on all copies of the Statement of Loss or Damage at Delivery (DD Fm 1840).
- ____ 10. If you have loss or damage to your household goods, complete the DD Form 1840R and return it to the Claims office within 70 days of delivery of your goods. NOTE: Do not repair or replace damaged goods prior to filing your claim and consulting with the Claims office.
- ____ 11. Check in at the Postal Service Center (PSC) window to complete the AF Form 624, Base/Unit Locator and PCS Directory. Your mail is held 15 days past RNLTD (Report No Later than Date) unless you process through the PSC. Provide names of all family members.
- ____ 12. Encourage all family members to help with choices about decorating. This promotes family togetherness and helps everyone feel comfortable with their new surroundings.
- ____ 13. Take advantage of the welcome packet. Visit the Chamber of Commerce. Visit the Airman and Family Readiness Center and Services Squadron facilities. Tour your new base. Attend the Newcomers briefing and take your spouse with you.
- ____ 14. Get acquainted with your new neighbors and community. Get a map and tour your new town.
- ____ 15. Volunteer at the school, hospital and service agencies. Volunteering is a good way to meet people.
- ____ 16. Set aside family time to restore family routines. Re-establish special activities like "pizza night" or weekly religious service.
- ____ 17. Look through the local phone book--especially the Yellow Pages.
- ____ 18. Some children see moving to a new school as a pleasant experience. Others anticipate change with real fear. One way a parent can help a child to adjust to a new school is to tour the school with the child, pointing out the classroom, cafeteria, restroom, playground and other areas. This will ease some of the anxiety and keep the child from feeling lost. Introducing the child to teachers and a few classmates will help. Make sure they are dressed in an outfit that will boost their self-confidence on a difficult day. Take time to listen to your children's new experiences each day.
- ____ 19. CHECK WITH THE AIRMAN AND FAMILY READINESS CENTER FOR ASSISTANCE WITH SETTLING IN AT YOUR NEW LOCATION! Contact the Air Force Aid Society if finances are needed for unexpected expenses such as assistance with the initial rent and deposits or essential household furnishings. The Airman and Family Readiness Center can also assist your spouse with finding employment.

**MOVING YOURSELF
TIPS FOR A DO-IT-YOURSELF (DITY) MOVE**

- * Obtain information and approval from Traffic Management Flight PRIOR TO making any arrangements with the rental company. You must attend a TMF DITY briefing 45 days in advance of your DITY move. Failure to do so may make you ineligible to recoup costs.
- * Map your route to new station to prevent additional miles.

IF YOU ARE RENTING A VAN OR A TRUCK

- * Check for and compare military rates and requirements.
- * Make reservations early.
- * Remember to get a certified weight of the vehicle/trailer both empty and full. You cannot liquidate your travel claim without certified weights.
- * Confirm vehicle size/capacity with rental company. It's better to be a little too big than a little too small. Approximate sizes:

2 rooms or less - cargo van	4-5 rooms – 18 foot truck
2-3 rooms - 15 foot truck	7-8 rooms – 22 foot truck

- * Confirm number of days/miles allowed for move.
- * Make sure you obtain these necessary supplies.

Loading ramps	Boxes	Padding
Dollies	Tow Bars	Trailer Light Hookups

- * Verify additional costs

Insurance and Deductibles
Additional miles/days
Drop-off Charges

- * Load carefully

Disassemble what you can	Pad delicate items
Load heavy furniture first	Secure load

MOVING LARGE FURNITURE

- * Measure your furniture to be sure it will fit.

Oversized Beds	China Cabinets	Sofa
Large Dressers	Shelving	Piano/Organ
Appliances		

- * Check sofas, large chairs and dining tables to see if legs can be removed to fit furniture through narrow doors, halls or stairways.
- * You may want to disassemble shelving units when packing.
- * Find out if and how you can take the door off a too-large refrigerator or freezer.

DITY SHORTCUTS

- * Wrap sofa and chair cushions in sheets or plastic bags to use as extra padding for other large items you transport.
- * If you are moving a short distance, leave clothes on hangers and cover with large garbage bag.
- * Move dresser drawers without removing their contents to avoid repacking.
- * Don't mix items from different rooms in one packing box.
- * Clearly label boxes with the rooms where they should be taken when unloaded.

TIPS FOR TRAVELING WITH PETS

The following are tips for transporting your pets by car, by air, using military aircraft, and overseas travel. Remember that these are only a few tips. You will need to contact your transportation or Household Goods Office for more detailed instructions and requirements. Be sure to check your new base for must-know information on pet quarantine. Pet quarantine and permits may be expensive and worked into your PCS budget.

Before the Move:

- * Prior to a trip, your dog or cat should be examined by a vet to assure it is in good health.
- * Exam is also necessary to obtain legal documents required for interstate and international travel. The vet should provide any inoculations your pet requires such as rabies, distemper, bordatella (kennel cough) and FELV (Feline Leukemia Virus). Heartworm preventative pills may be given after a simple blood test.
- * A vet may prescribe a sedative or tranquilizer for the nervous pet traveler.

Legal Requirements:

- * Every dog or cat traveling across state lines should be accompanied by a valid health certificate and rabies vaccination. It is advisable to obtain the required documents to avoid the risk of having your pet placed in quarantine or refused entry into a state.
- * To visit Canada, your animal will be permitted to enter the country without any special documents if it is healthy, but must be accompanied by a rabies certificate and rabies vaccination. It is advisable to obtain the required documents to avoid the risk of having your pet placed in quarantine or refused entry into a country.

Travel Carrier:

- * Carrier should be durable and smooth edged with opaque sides and grill door. It should have several venting holes situated on four sides.
- * Select one which has enough room to permit your animal to stand up and turn around, sit and lie down. Be certain to choose a carrier with a secure door handle. Mark with your name and destination address and phone.

By Car:

- * Get your pet used to car travel by taking it on short trips while still young.

- * While in a moving car, don't let the pet jump around or hang its face out the window.
- * Cats should travel in a carrier. Get the pet accustomed to the carrier well before the trip.
- * Keep feeding to a minimum during travel. Carry a container of water. Stop frequently to allow the pet to drink, exercise and relieve itself.
- * Take some familiar toys, feeding dishes or the pet's blanket to give a touch of home in the car and at your destination.

By Air:

- * Make shipping arrangements well in advance.
- * Have a current health certificate and rabies, distemper and hepatitis inoculations.
- * Place a copy of all paperwork in a sealed envelope secured to the crate.
- * Print your name, address and destination on the outside. It is very important to also include the pet's name so the attendants can talk to him. Make any other necessary notations, i.e., the animal bites.
- * Feed a light meal six hours before shipping. Don't give water within two hours of shipping, unless it is a hot day.
- * Check with the airline or air freight company for any other documents or important instructions they may require for transporting an animal.
- * Consult with your veterinarian as to the use of tranquilizers or other medications associated with transporting animals.

Using Air Mobility Command:

- * You must pay for the shipment of pets. Only two pets per family are authorized.
- * AMC does not sell, lend or rent pet shipping containers.
- * Owners are responsible for immunizations, clearances, and ground transportation.
- * Owners must have a DD Form 2208, rabies vaccination certificate or equivalent, when making reservations.
- * Make pet reservations when you make your own travel arrangements. Pets are boarded as excess baggage.
